TLDR - WHAT IS RVR?

RVR is a community-owned ecosystem connecting underground music culture, fashion, and digital art through the XRP Ledger.

It has three on-chain products and three real-world pillars:

On-chain:

- . MAUS NFT – your digital identity & access pass – recognizable and unique.
- . RVR Token – governance, staking & utility
- . RVR Metacclubs – virtual venues on XSpectar

Real World:

- . RVR Music – immersive underground events
- . RVR Fashion – limited drops, ethical design
- . RVR community – holders run the show via DAO

Key numbers:

- . 4,069 MAUS NFTs + 13 free Supremes + 4069 free Doodle MAUS
- . 500M RVR token supply – 95% of token supply distributed to community · 0% team token allocation

WHY XRPL

RVR runs on the XRPL, the blockchain that moves at **lightning speed**.

One of the most battle-tested, low-cost blockchains available – because the culture we are building demands speed and accessibility, not friction.

Why it matters?

- . 1,500 Transactions Per Second (TPS) – no queues, no payment delays.
- . The minimum transaction cost on XRPL is 10 drops (0.00001 XRP), scaling with network load. Even during high congestion, fees remain minimal, making microtransactions feasible and cost-effective.
- . XRPL's design allows for high scalability without compromising on decentralization or security. Its consensus algorithm enables efficient validation of transactions, supporting the growth of applications.
- . Proven adoption: XRP's circulating market cap grew strongly year-over-year through 2025.

Fast chain. Fast culture. Nothing slows the beat.

THE VISION

RVR bridges the digital and real worlds through art, music and NFTs – uniting people on-chain and IRL as one unstoppable underground community.

We invest in three core pillars that define our mission:

- 1] **Digital art:** The MAUS NFT collection is the creative foundation and identity of RVR.
 - 2] **Music events:** Immersive, high-energy experiences that connect real crowds to Web3.
 - 3] **Token economy:** The RVR token turns participation into influence – powering staking, governance, and rewards across the ecosystem.
- . **Short-term** – we build the community through the MAUS NFT collection and \$RVR token.
 - . **Mid-term** – we connect all pillars, merging DeFi, music, and art into one strong interactive economy.
 - . **Long-term** – we become a self-sustaining ecosystem that redefines how digital assets power real applications and experiences.

Built to last. Driven by the crowd. Made for the culture.

RVR IS FOREVER

RVR MUSIC

RVR Music puts music back at the center of the show, where it belongs.
No endless selfies for social media. No gimmicks. No noise stealing the beat.

The focus is pure sound, pure energy, the present moment, and the shared experience.

Just a few events per year – rare by design, scarcity keeps demand high.

RVR Music is sound, freedom, and presence. Phones away. Music on.

.MAUS holders receive priority access, VIP perks, and engagement-based rewards tied to community participation, funded through RVR events and activities.

.DAO participation gives you the power to decide our path.

.Tickets can be purchased with \$RVR tokens or local currency, creating a closed loop between the digital ecosystem and real-world participation.

RVR METACLUBS

RVR Metacclubs merge the live and digital worlds, redefining how people connect and engage.

Built inside XSpectar, these hubs host music events, art exhibitions, business meetings, and community happenings – all shaped by RVR's signature atmosphere.

The metaverse becomes a **new stage for connection:**

- . **Music:** Step into the sound, feel the rhythm, no matter where you are.
- . **Art:** Interactive, living galleries that invite participation and exploration.
- . **Business:** Connect with clients worldwide in a single shared experience, expanding reach and engagement.

Unlock a new level of global network – immersive, direct, and borderless.

RVR Metacclubs amplify community, music, art, tech, and business in one evolving ecosystem.

The dancefloor doesn't stop. **IT EXPANDS.**

THE DROP - MAUS NFT COLLECTION

MAUS is the heartbeat of RVR – Your digital identity inside RVR's world.

- . **Supply:** 4,069 NFTs – Bold, alive and future-ready.
 - . **Dynamic NFTs:** 15 fully customizable NFTs – Holders can upgrade their dynamic MAUS as they want, when they want, and unlock additional exclusive features with \$RVR tokens.
 - . **The 20 Uniques:** 20 one-of-a-kind MAUS – Chase the ultra-rares and become a legendary MAUS.
 - . **Supreme 13:** An exclusive collection of 13 animated MAUS – Awarded to the first 13 holders to reach 60 MAUS, or the top 13 collectors at mint-out.
 - . **Royalties:** 7% [Includes 0.5% to Gold MAUS]
- Owning a MAUS NFT unlocks real utility:** \$RVR token airdrops, access to IRL music events, metaverse experiences, and activity-based rewards.

MAUS makes NFTs **tangible, social, and valuable beyond the screen.**

THE DROP - MAUS NFT COLLECTION

MAUS is built from 12 distinct traits and over 570 unique attributes, creating 4,069 combinations with real personality and rarity.

MAUS is recognizable and unique, ready to take the stage.

From classics like 3D Glasses, Laser Eyes, and Gold Jacket, to signature pieces like GameMAUS, MAUS Who Laughs, Gold Mohawk, and more. There is a MAUS for everyone.

If you're lucky enough to **mint a Gold Ticket**, you unlock free entries to RVR events, VIP access, and priority perks (Subject to availability and FCFS basis).

All MAUS holders may receive a complimentary drink per event, subject to availability and FCFS basis.

. 25 XRP gets you:

- . 1 MAUS + 1 Doodle MAUS.
- . Allocation of \$RVR tokens based on your holdings, engagement and participation.
- . Access to community and staking rewards.
- . Voting power in the DAO.

Mint a MAUS. Own a unique 3D digital work, **RVR style.**

SNEAK PEAKS

RVR TOKEN

\$RVR token is the fuel that powers the entire ecosystem – enabling participation across RVR.

Holders use \$RVR tokens to buy dynamic MAUS attributes, RVR tickets, fashion drops, vote on proposals – or stake and earn more \$RVR tokens through the ecosystem.

How it works:

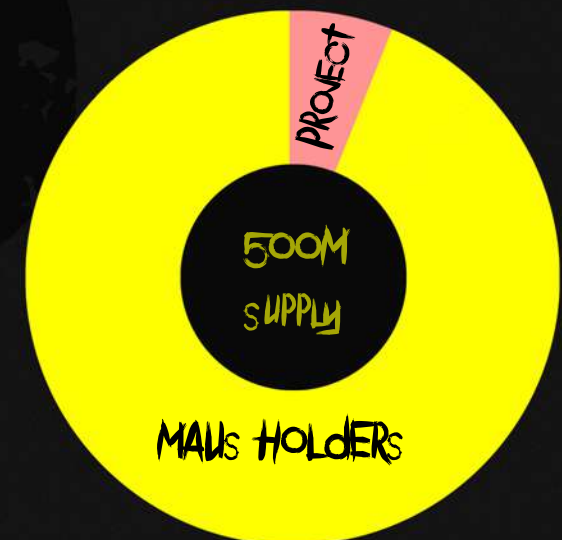

- . **Utility drives demand:** The more \$RVR tokens are used across digital and IRL experiences, the greater their visibility and circulation.
- . **Ecosystem activity:** Every RVR experience (music events, fashion releases, or ecosystem participation), fuels token activity and engagement.

For MAUS NFT holders:

- . 95% of the supply allocated to MAUS NFT holders via multiple mechanisms.
- . 5% reserved for project development.
- . No public sales, no team allocation – fair launch to all MAUS NFT holders.

Governance power:

- . Each RVR token grants DAO voting rights
- . More tokens = more influence in community decisions

\$RVR TOKEN - WHY HOLDING?

Holding \$RVR is owning power and influence in the ecosystem.

What's the utility?

- . **Voting power:** Each \$RVR token gives voting weight in the DAO.

The more you hold, the louder your voice in event decisions, partnerships, and treasury use.

- . **Staking rewards:** Stake your \$RVR to earn more tokens. Staking grows your influence while fueling the ecosystem.

- . **Claim RVR and MAUS perks:** Use your \$RVR tokens to claim RVR tickets, VIP perks, and dynamic MAUS NFT upgrades.

- . **Engagement = Rewards:** Active participation – engaging with the community, staking, voting, and using your \$RVR – feeds back into rewards, strengthening your influence.

Bottom line: Hold your \$RVR tokens, level up your influence, and run the culture.

RVR TOKENOMICS

\$RVR moves with the community that powers it.

No public sales, no team bags, no hidden wallets – just real distribution with real purpose.

MAUS NFT holders are at the core, with \$RVR token airdrops unlocking governance and real utility across the ecosystem.

. Total Supply: 500M

. Distribution:

50% → Staking rewards

35% → Community airdrops

10% → Giveaways & incentives [community events and games]

5% → Project fund [locked for core development]

**BUILT FOR HOLDERS!
BUILT TO LAST!**

FUND DISTRIBUTION

RVR thrives on the energy of its community.

To ensure long-term sustainability and growth, funds raised are strategically allocated:

- . 40% → Project development**

Dedicated to building the ecosystem and core infrastructure.

- . 5% → Marketing & brand presence**

Fueling campaigns, partnerships, and visibility to expand the RVR community.

- . 30% → Community rewards & token mechanics**

- . 13% → Engagement rewards in XRP and TX.

- . 17% → Funding the \$RVR token Liquidity Pool.

- . 25% → Team & creative commitment**

Ensure durable, long-term commitment to operations, art creation, community management, event production, dApps creation, and brand management.

GOVERNANCE AND dAO

RVR runs on community power. Decisions are made collectively, not hierarchically.

. Dual Power:

MAUS NFTs grant identity and access.

\$RVR tokens grant voting weight. Together, they shape direction and value.

. How?

MAUS holders receive \$RVR token airdrops.

\$RVR token = voting strength. The more you hold and engage, the stronger your influence.

Your involvement shapes how funds are allocated, which projects move forward, and how RVR expands.

. Proposals:

Holders vote on key moves — event locations, collaborations, partnerships, treasury use, artists, creative direction, and more.

. Execution:

Once approved by the DAO, decisions move straight into production. No middlemen.

The DAO transforms passive holding into active influence: **YOU ARE RVR**

COMMUNITY REWARDS

RVR is designed to operate within corporate and tax law.

Legal Agreement:

- . Rewards distribution follows a **Master Agreement** (MA) signed by RVR.
- . The MA outlines how MAUS NFT holders may receive **event and activity-based rewards**.
- . The MA is public – pinned on our website.
- . Holding a MAUS NFT makes you eligible for rewards under the terms of the agreement.

How It Works:

- . Our bot tracks engagement and community activity.
- . Snapshots record participation and interactions.
- . Rewards are paid in **XRP, RVR** and **TX**.
- . Distributions are engagement-based, transparent, auditable, and legally recorded on the blockchain.

For MAUS Holders:

- . Rewards honor **real community participation**.
- . More engagement earns more CB (engagement points) and higher chances of event-based rewards.
- . MAUS NFTs remain both **a collectible and your digital identity**.

LEGAL AND COMPLIANCE

Utility, Not Security:

- . \$RVR token is a utility token for access, dynamic attributes, and ecosystem use.
- . It carries **no dividends or investment guarantees**.
- . \$RVR tokens can be staked, traded, or redeemed for RVR and MAUS products.
- . MAUS NFTs are collectibles and digital identities, not securities.

Payment Flow & Reward Distribution:

- . Rewards are based on engagement and participation, according to the MA.
- . MAUS holders earn **Cheese Bytes** (engagement points) through community activity.
- . More **CB** (Cheese Bytes) increases chances of event and activity rewards.
- . Rewards are paid in **XRP**, **RVR** and **TX**, and fully transparent on the XRPL or TX blockchain.
- . Payouts are engagement rewards, not financial returns.

KYC & AML:

- . All payouts are tracked on the blockchain, ensuring full transparency.
- . KYC may be required to ensure compliance for certain event and activity-based rewards. If so, a trusted third-party provider will handle all processes, keeping user data secure, private, and fully compliant with regulations.

This classification reflects the project's current intent and is subject to applicable law in relevant jurisdictions.

RVR ROADMAP 2.0

ABOUT THE FOUNDER

spectrum108 – Founder, Operations & Creative Director.

Creator since 2005. XRPL investor, NFT collector, and active community soldier since January 2021.

A multidisciplinary visual artist across photography, video, 3D, music videos, and fashion visuals, blending underground culture with cinematic production.

Turning atmosphere into identity, emotion into design, and shaping a new visual language on the XRP Ledger defined by its uniqueness, style, and dedication to the community.

Founder of RVR – **Art, music, community and finance pulse together.**

FINAL WORDS

RVR is culture amplified built for the underground, powered by the blockchain.

MAUS holders move first: Hold and contribute to the ecosystem to earn \$RVR tokens.

RVR tokens fuel the system: Staking, activity rewards, and real influence.

The **DAO** turns holders into decision-makers.

Event and activity-based rewards give active holders the chance to enjoy incentives.

Metaclubs collapse distance: Music you feel, art you live, business you experience, globally.

Music shapes what we are: Immersive moments where sound, movement, and presence take over.

Fashion: Turns RVR's mindset into **wearable identity**.

WE ARE RVR - WE ARE RVR - WE ARE RVR

We are a movement built on art, music, finance and connections.

Owned by its **community**, powered by **utility** and designed to last **foReVeR**.

MANIFESTO - WE ARE RVR

[We are RaVeRs. RêVeuRs. suRviVoR. pRoVocaR. ReVeRie. RéVolteR. irReVeRent. ReVolucionaR. foReVeR.]

RVR is energy **you can't fake**. It's underground, raw, and unapologetic.

It's the pulse in the crowd, the beat in your chest, the moments that hit harder than a bassline.

Every drop, every experience, every thread, everything we do carries RVR charge:

Authentic. Intentional. High standard. Community-driven. Timeless.

We create culture that moves people.

Forged by the community, where on-chain collides with real life, and ownership becomes influence.

MAUS NFTs are your gateway. \$RVR token is your power.

You don't watch RVR, you shape it. Use your voice.

OWN IT,

WE ARE RVR
